MAGIC004 - Magic Can (115mm)

A seriously stimulating 115mm Magic Can printed full colour on all sides. This complex item consists of 8 connected blocks that continuously flip and fold in a seemingly never-ending loop. Each new fold reveals more vibrant artwork as the can magically morphs into all sorts of different shapes and back again.

The standard template creates 7 panels (1 large panel covering the exterior of the unfolded cylinder along with 2 long rectangular interior panels and 4 circular end panels).

The blocks are made of durable black HIPS recycled plastic covered with matt labels.

Fitted with a magnetic closure and individually shrink-wrapped as standard.

Optional extras: anti-scratch labels/plain white or branded paper box/AR.

The Magic Concepts range represents the pinnacle of highly engaging and intelligently designed multisensory 3D media. These magical folding and twisting puzzles provide the perfect way to effectively communicate anything from product launches or anniversaries to company values and corporate training. Not to be confused with cheap copies, all cubes are of superb quality & long lasting finish worthy of premium brands.
