MAGIC005 - Magic Tile (80mm)

An attractive 80mm Magic Tile printed full colour on all sides. This impressive item consists of 8 connected square tile-shaped blocks that continuously flip and fold in a seemingly never-ending loop. Each new fold reveals more vibrant artwork as the tile magically morphs into a large panoramic panel and back again.

The standard template creates 9 panels (1 large billboard-style panel along with 8 square and rectangular panels of various sizes).

The blocks are made of durable black HIPS recycled plastic covered with matt labels.

Individually shrink-wrapped as standard.

Optional extras: anti-scratch labels/plain white or branded paper box/AR.

The Magic Concepts range represents the pinnacle of highly engaging and intelligently designed multisensory 3D media. These magical folding and twisting puzzles provide the perfect way to effectively communicate anything from product launches or anniversaries to company values and corporate training. Not to be confused with cheap copies, all cubes are of superb quality & long lasting finish worthy of premium brands.
