

NEOGLR - Neoprene Eyewear Retainer

A smooth neoprene eyewear retainer with a screen or full colour print on 1 side. Soft but durable neoprene is tear and water-resistant. This stretchy retainer is designed to securely hold the ends of both arms on a pair of glasses to allow the wearer to hang them around their neck when not in use.

NB: Flexible neoprene cannot easily be screen printed with more than 1 colour per position when the registration of colours is tight (designs are confirmed on sight of artwork).

Available in a wide range of standard colours.

Vehicle and travel-related items of many varieties make great promo or retail products. They're ideal for all sorts of companies connected to automobiles and transport as well as for travel businesses and beyond.
