

SMW - Silicone Smart Wallet

A soft and smooth silicone smart wallet with a screen or full colour print on 1 side. This useful accessory sticks firmly to the back of a flat smartphone or case to create a secure pocket for plastic cards. Ideal for keeping 1 or 2 cards (bank/ID/travel/loyalty) safe and close at hand.

NB: Any residue left following removal can be easily wiped off with a damp cloth.

Optional extras: additional spot colours/RFID-blocking technology (to prevent bank cards being scanned).

A microfibre version is also available as well as an alternative silicone smart wallet with a pop up stand.

All sorts of accessories enhance our experiences with tech. Some clean or store devices while others have more specific uses e.g. phone stands. When personalised, these items make great promo or retail products.
