

SWPOP - Silicone Smart Wallet with Pop Up Stand

A silicone smart wallet featuring a pop up stand screen printed with up to 3 spot colours. This super useful item sticks firmly to the back of a flat smartphone or case to create a secure pocket for plastic cards and allow the phone to stand. Ideal for keeping 1 or 2 cards (bank/ID/travel/loyalty) safe and close at hand. This multifunctional accessory also offers a fantastic hands-free means of holding a phone (vertically or horizontally) while watching/reading something or making a video call.

NB: Any residue left following removal can be easily wiped off with a damp cloth.

Optional extras: additional spot colours/RFID-blocking technology (to prevent bank cards being scanned).

Alternative smart wallets without any pop up stand are available in silicone or microfibre.

All sorts of accessories enhance our experiences with tech. Some clean or store devices while others have more specific uses e.g. phone stands. When personalised, these items make great promo or retail products.
