CPR - Carabiner Pull Reel

A carabiner pull reel screen printed on 1 side. This plastic pull reel has a metal trim with a sturdy built-in carabiner clip ideal for connecting it to a belt loop. It is perfect for holding a PVC wallet or rigid card holder. It can also help carry pre-punched plastic cards as well as keys and other small items.

Fitted with a retractable reel featuring a clear vinyl strap and press stud clip. A metal belt-clip on the reverse allows the pull reel to be easily attached to a belt or pocket.

2 standard colours: Black/White.

Optional extras: pantone matching.

A full colour printed alternative with a decal is also available.

Pull reels provide the perfect compact and tangle-free alternative to lanyards. They're especially useful for presenting security passes or using swipe cards and keys. They can even be attached to a lanyard as an accessory. When personalised they function as fantastic and affordable promotional products.
