RLAN(L) - Rope Lanyard

A strong polyester lanyard made of colour-matched or pattern-woven rope featuring a label with a woven design on 1 side. This unique product offers a more robust alternative to conventional lanyards. It can be used like any other lanyard but is especially helpful for holding heavier and bulkier items.

Fitted with a black plastic breakaway buckle and metal carabiner.

Lanyards help hold and display ID badges or security passes and carry small items like keys. They're used day-to-day by many organisations and for all sorts of special occasions, from conferences and exhibitions to sports and entertainment events. This makes them an affordable and highly effective marketing tool.
